

BOOTS...

This is the best boot weather we have had this winter and our stock is at your service at

One-Fourth Off.

Geo. Hocker's best \$6 00 boot for	\$4 50
Alter Forwood & Co's \$4 00 boot for	3 00
Heavy full stock kip boots worth \$2 50	1 88
Heavy full stock kip boots worth \$2 00 for	1 50
Our best \$3 calf box toe boots worth \$3 for	2 25

Our Bargain table has nearly one thousand pairs of Mens Womens and Childrens Shoes on it at 1, 1, 1, and sometimes 1 off the regular price. Off style? Yes, but good custom shoes that will wear all right.

J. H. Anderson & Co.

CLOSING OF WINTER.

At this time of year the value of Winter Stock is just the price that it will bring. Goods of fashion must be sold the season they are bought. Styles of previous season are absolutely worthless, nay, worse than worthless. The old deprecate the new. With us Goods of Fashion are always sold the season they are bought. Let the Loss be What it May

OUR SEMI-ANNUAL CLEARANCE SALE OF FOOTWEAR

Will Commence Thursday Morning, Feb. 11th.

Twice a year we go through our shoe stock, select out all odds and ends, broken sizes and lines we desire to discount and cut the price so as to clear them at once. To add to the importance of the sale this season we have included in the movement many of our regular lines, thus enabling our patrons to obtain shoe bargains not to be found in any other store in Hopkinsville. We desire to have it understood that you are not invited here to be confronted with a few lines representing old fashion, Out-of-Date Goods but stock possessing all the elements tending to the Best Footwear in Fashion Style and Quality that can be produced and this at a saving of from 50c to \$2 pair.

Come, a Fortune in Economy Awaits You.

Read the few quotations given here and note the savings.

Men's tan plain pointed toe, Regular Price \$4 00, Cut to 2 00.	Men's calf shoes, Regular Price \$3 50, Cut to 2 65.
Men's tan pointed toe shoes, Regular Prices \$3 00, Cut to 1 50.	Men's calf shoes, Regular Price \$3, Cut to 2 25.
Men's tan pointed toe shoes, Regular Price \$2 00, Cut to 1 00.	Men's calf shoes, Regular Price \$1 75-1 50, Cut to 1 25.
Men's black shoes, pointed toe, Regular Prices \$4, Cut to 3 00.	Men's buff shoes, Regular Price \$1 25, Cut to 98c.
Men's black shoes, Regular Price \$3 50, Cut to 2 50.	200 pairs of Ladies, douglas, Regular Prices \$2 00 to 3 00; sizes 10 to 15.

MRS. R. C. WATKINS DEAD.

Son Death of a Former Hopkinsville Girl, at Paducah.

Mrs. Porter Lowry Watkins, the young and beautiful wife of Mr. Rush C. Watkins, died Wednesday afternoon at Paducah, of fever. She leaves an infant about two weeks old. Also a little girl about two years of age.

Mrs. Watkins was the only child of the late Mr. W. A. Lowry, who died at his home in this city a little more than a year ago.

She was married about three years ago to Mr. R. C. Watkins, who was then traveling freight agent of the N. & M. V., and now has a similar position with the Illinois Central road. She was barely out of her teens at the time of her marriage and had not reached her 23rd birthday when she died. Her death is one of peculiar sadness and the bereaved husband and two motherless babes have the heartfelt sympathies of many friends.

Less than a year ago Mrs. Watkins came into possession of the handsome fortune left her by her deceased father, who was happily married and enjoying the best of health, and the future appeared to be all brightened for her. Her husband was rapidly rising in his calling as a railroad man, and they had just begun housekeeping in their new home in Paducah, to which place they had but recently removed.

When the little boy arrived a few days ago, their cup of happiness seemed to be full to overflowing. The young mother dictated letters to her friends here telling of the event that brought joy to the hearts of the fond parents, but the next news was a sad summons to her step-mother to come at once, as a dangerous fever was threatening the life of Mrs. Watkins.

Mrs. Lowry hastened to her bedside Sunday and was with her when the end came three days later. All that love and care and medical skill could do was done for the sufferer, but gradually even the faintest hopes were crushed until all was over.

The body was brought to this city yesterday and the funeral services will be held at the family residence at 925 South Main Street at 10 o'clock this morning, and the interment will follow at Hopewell Cemetery.

It is said that President Cleveland will make a tour of the world after his retirement from office, and that he will be accompanied by several members of his present official family.

CREAM OF NEWS.

IF IT IS NEW AND TRUE THIS COLUMN HAS IT.

Representative Morgan Very Sick—Assignment at Pembroke—A Dozen Indictments—Suspect.

Died of Her Injuries.

Mrs. Lura Harris, of near Elkton, who was horribly burned one day last week, died of her injuries Tuesday.

Killed a Copperhead.

Mr. Dave Wilkins, of the Antioch neighborhood, while clearing away briars from a fence corner Tuesday, came upon a large copperhead snake, which he dispatched in short order.

Only a Dozen Indictments.

The Trigg county grand jury returned only twelve true bills at this term. All of the indictments charge minor offenses. Two bills were found against a negro man, charging violation of the local option laws.

In Jail For Debt.

D. L. Pennington was placed in jail this week at the instigation of T. M. Hogan, on account of a verdict of \$ 9 given in a damage suit. Pennington will remain in jail ten days and then take the insolvent debtors' oath and be released.

Pembroke Firm Assigns.

Messrs. W. L. Lander and W. Hood Miller, proprietors of the Racket store at Pembroke, assigned Wednesday. Mr. D. L. Lander was named as assignee. No schedule has yet been filed, but it is understood that the liabilities are in excess of the assets.

Last Day of Grace.

To-day is the last day for filing suits for the spring term of Circuit Court, and also the last day for serving summonses. The sheriff and his deputy have been busy during the past few days serving papers. The docket is a pretty heavy one, but the term lasts six weeks and much business will transacted.

Arrested on Suspense.

At an early hour yesterday morning, Officer Lander arrested a tramp, giving him the name as Ralph Novell. Later in the day he was released from custody and immediately left the city. He was taken in as a suspect, but on being closely questioned by Judge Taylor, he was found that he was not the man wanted, although his description closely resembled that of an Illinois "crook," for whom there is a reward of \$1,000 offered.

A Strange Testament.

The will of the late Spencer H. Page, a well to do planter of Antioch, who died last week, was probated Wednesday, and is extremely sensational. His several legal children are left nothing, "in consideration of the fact that they are self-sustaining." He leaves all his property of every description to "Emily Tucker, sometimes called Toubery, who has lived with me fifteen years, and by whom I have begotten two children." The will further says: "I request that the said woman be allowed by the County Court to qualify with bond." The will is witnessed by John Feland, Jr., and Dr. Ben F. Eager. It is said that the lawful children will contest.

MR. MORGAN ILL.

The Christian County Representative Down With Pneumonia.

Hon. Jas. W. Morgan, representative elect from this county, is critically ill with pneumonia at his home at Era, twelve miles north of town. He has been sick for about a week and the latest information, received yesterday morning, was that his condition is very critical and his recovery extremely doubtful. Mr. Morgan is a man of frail physique and not able to stand a severe spell of pneumonia without the greatest danger to his life. He is a well known school teacher who was elected last November to succeed Hon. C. M. Brown and as the completion of the present legislature depends upon one vote, the greatest importance attaches to his illness. Mr. Morgan has served one term in the House and is also a candidate for re-nomination, before the primaries to-morrow week, with two opponents for the Republican nomination. He was elected last year over Mr. J. L. Mosely, Democrat, by 1300 majority.

Notice to Business Men.

Business men should leave word at their homes if they want their houses numbered when assigning numbers to come down town and butt up the business man, to find if he wants a number on his house. Trouble in being caused the census takers to do this and the work of numbering is being delayed. BE SURE AND LEAVE WORD AT YOUR HOUSE.

The Rev. Fred J. Estes, a preacher of Columbus, Ga., left dead while playing.

A PRONOUNCED SUCCESS.

The "As You Like It" Made Over \$100 for The Library.

The dramatic entertainment given by the "As You Like It" club Tuesday was one of the most successful home shows ever given in this city. The opera house was packed and the club was able to turn over to the Library Association \$100 as their donation to its fund.

The entertainment was in two parts. The first piece "The Chaperon" was presented by the following cast of characters:

Miss Morong, principal of Crandon Hall, Mrs. Tom Long, Mrs. Dyne-Court, Miss Mary Tyler, Mme. Jeanne, French teacher, Miss Georgia Flack. Nine young lady pupils represented by Misses Edith Boulware, Belle Moore, Lizzie Long, Mary Barbour, Etiehe Barrett, Let Fairleigh, Willie Reid, Julia Venable and Daisy Wood. Miriam, the Gypsy, Mrs. Tom Underwood, Jill, the wail, Little Janie Graham. Nora, the maid, Miss Lizzie Mercer. The play is a two act drama and the parts were all well sustained until the end was what is termed in theatrical circles a very "evenly balanced" one. Miss Edith Boulware, as Joyce Dyne-Court, Miss Georgia Flack and Mme. Jeanne, Mrs. Underwood, Miriam and Miss Lizzie Mercer, as Nora, sustained the leading parts in a most creditable manner. Little Miss Janie Graham was a favorite whenever she appeared and her rendition of the child's part was one of the successes of the play. Mrs. Long, Miss Tyler and in fact all of the young ladies developed decided histrionic capacity and left no room for criticism.

Following "The Chaperon" came "A Box of Monkeys," which proved to be a roaring farce comedy in two acts. Mr. Tom Underwood, as Edward Rolston, a mine owner, and Mr. Jas. A. Cook, as Chauncey Oglethorpe, a young English lord, were the male stars, while Mrs. Tom Underwood as Mrs. Oglethorpe, and Misses Marie Tyler and Edith Boulware as the sweethearts of the young men, all depicted the house with the young men.

In this play Miss Marie Tyler found an opportunity for some "specialty" work, and gave a song and dance that brought down the house and forced her to respond to a tumultuous encore. During the first play, Miss Lizzie Mercer made a similar hit as Nora, the Irish girl. Space will not allow us to say all the nice things the young ladies deserve, but they made such a success all round the corner of the neighborhood towns have invited them to make engagements and they will probably play Pembroke next week.

Merry World Coming.

On next Wednesday evening, the great New York success, "The Merry World," will be seen at Holland's Opera House.

This will be cheering news for those amusement lovers who impel them toward the bright, light, clean and effervescent style of entertainment as "The Merry World" boasts of not an act or scene only to amuse. The audience is treated to a succession of comic opera, vaudeville, spectacular and farce-comedy, and the richest embellishment in the way of stage settings and the most alluring novelties in the way of brilliant illuminations, mechanical and electric effects, costumes, times, properties, etc. All the latest successes in the operatic and dramatic world are burlesqued, the popular faces of the day are hit upon and the leading actors and actresses carefully mimicked in the characters which have made them famous. Travesties on "Trilby," "Miss Sans Gene," "Wang," "Robin Hood," "Little Trooper," etc., are given and the spectator can in many instances, imagine himself actually beholding such well-known artists as Della Fox, DeWolf Hopper, Francis Wilson and Katharine Kidder, so perfect are the counterfeits.

The entire evening is given over to an entertaining mélange of music, mirth and mimicry.

Tongue Twisters.

Six thick sticks sticks.
Flesh of freshly-fried flying fish.
The sea ceaseth, but it sufficeth us.
Give Grimes Jim's great gilt gilt whip.

Two toads, totally tired, tried to trot to Tedbury.

Strict, strong, Stephen Stringer, snored sickly sickly snore, snore.

She stood at the door of Mrs. Smith's fishbush shop, welcoming him in.

Swan swam over the sea; swim swan, swim; swan swam back again; well swam swan.

A laddock, laddock, a black-spotted black stock, black stock, the black back of a black-spotted laddock.

Susan shineth shoes and socks; socks and shoes also Susan. She shineth shining shoes and socks, for shoes and socks shod Susan. Chatterbox.

John Pollock was killed by the bursting of a mill boiler, near Concordia, Ky.

EQUITABLE LIFE ASSURANCE SOCIETY

OF THE UNITED STATES,
FOR THE YEAR ENDING DECEMBER 31, 1896.

PROGRESS OF SCIENCE.

Wonderful Forward Strides Made During the Year 1896

Prof. Roentgen's Discovery of the X Ray has made possible achievements in the domain of Electricity, Magnetism and the X Ray.

(Special New York Letter.) From a scientific viewpoint 1896 may be called the banner year of a decade remarkable for wonderful discoveries and inventions. The medical, astronomical and mechanical progress made during the past 12 months is simply marvelous, and it seems no more than just that we who live to-day will witness another such epoch of startling scientific advancement. The best thought of Europe and America contributed to progress through the film and parallel to the surface of the plate.

Edison's kinestoscope of 1888 developed into the cinema of 1896. A typewriter bicycle has been invented. It consists of a large typewriter mounted on a serviceable wheel which can follow the movements of an army. The machine can be operated while it and its rider are held erect by portable props. It has worked satisfactorily in England. Electric bicycles have been made, but are not popular. In France a pneumatic bicycle horse has been built. A self-propelled ambulance is in use in the Berlin hospitals. It runs on five wheels, four supporting the body of the ambulance, while the front one is used for steering. Transportation is made with more ease and comfort than when horses are used.

In 1896 Prof. Roentgen approached to within 200 miles of the sun. Observations made at the Lowell observatory of Mars confirm the opinion that seasonal changes occur on that planet similar to those which we are familiar with as the sprouting, growth and decay of vegetation. As the canals are only visible at certain periods, it is believed that the fringes of vegetation spring up along the banks when the water comes and so help define them to the human eye. An extraordinary phenomenon noticed this year is the doubling of the canals. A canal which had been a single thin dark line is replaced in a day or so by two that for a thousand miles or more run exactly parallel, though separated by a distance of from 100 to 250 miles. This adds to the arguments in favor of the existence of life on Mars.

In early September Mr. Octave Chanute and Mr. A. M. Hering, at Dune Point, Ind., made a large number of trips in a flying machine without a pilot.

Foremost, last January, was Prof. Roentgen, who at that time, made public his discovery of the X ray. One of the students had for a long time been giving their attention to the study of the phenomena of phosphorescence and fluorescence, while Dr. Crookes and others were experimenting with tubes, the material of electrode, and the increasing and diminishing of the intensity of the electrical discharge. But to Prof. Roentgen came the discovery. He inclosed an excited vacuum tube in blackened cardboard treated with barium platino-cyanide. The cathode beam was accompanied by a new and strange radiance, which, although of fluorescent and photographic quality, can scarcely be any form of light. It is not susceptible of polarization or refraction. After this discovery became known there was an enormous amount of activity in the physico-medical world, and there seems almost no limit to the uses to which scientific men put the rays. Tesla and Edison have devoted months of patient study of the laws governing them. Mr. Edison has found 150 different organs that will fluoresce under the X ray.

In spite of all efforts to improve the quality and increase the efficiency of the incandescent electric lamp, lighted for over 90 per cent. of the energy expended has appeared as heat and not light. Now it seems possible that "cold light" or light in which the waste of energy in the form of heat is reduced to a minimum, has been obtained. Dr. MacFarlane Moore, of Newark, N. J., employs a vacuum tube in which the light is produced by the passage of the electric discharge through the rarefied gas of the tube. In such light there is no combustion and but little heat. Tesla has attempted this form of lighting, but the results have been unsatisfactory. Mr. Edison has made a contribution to this problem in his fluorescent bulbs. The commercial possibilities of these inventions are not yet known.

Last June the results of experiments conducted for the last five years at Cornell College, Ithaca, N. Y., seem to prove that electricity may be made to stimulate the growth of plants.

Thomas A. Edison, the famous American inventor, while perfectly satisfied with the progress made in 1896, expects to see during the present year in electrical science and radical changes in the mode of living, caused by the industry of inventors. One of the earliest successes he predicted with the serum treatment in leprosy has been made. The recent discovery of the clustering of bacilli in typhoid is likely to prove of great service in diagnosing that dread disease.

Thomas A. Edison, the famous American inventor, while perfectly satisfied with the progress made in 1896, expects to see during the present year in electrical science and radical changes in the mode of living, caused by the industry of inventors. One of the earliest successes he predicted with the serum treatment in leprosy has been made. The recent discovery of the clustering of bacilli in typhoid is likely to prove of great service in diagnosing that dread disease.

These receiving bright electric rays at night and sunshine in the daytime grow much faster than those which do not receive the artificial stimulant. By applying the rays to the leaves of many plants to seed before edible leaves were formed. On flowering plants the effect was wonderful. Blooms were hastened, their number multiplied and color made more brilliant, but they faded sooner. Prof. Lipman, the French physicist, in August, exhibited before the Royal Society of London some specimens of colored photographs produced by the direct action of luminous rays. They were obtained by a special exposure. The color is due to a physical texture produced in the photographic film by the light, and not to any deposited pigment. The chemical action of light upon the agents is the same as in ordinary photography; the different effects are due to a physical result brought about by having a metallic mirror in contact with the photographic film during the exposure of the plate. The result consists of reduced, brownish-black deposits of colored silver spread in a series of thin

A Well Known Physician.

Dr. W. R. McDowell of Central City, Ky., says German Liver Powder is the best family medicine made and is known almost everywhere. Price 25c. Money refunded if not satisfactory.

Assist Nature and She will do the Rest.

Use nature's own remedy, Carlstedt's German Liver Powder. This is made of roots and herbs powdered very fine so that your system gets the full benefit of all its ingredients. Beware of strong Cathartics. They do more harm than good. Price 25c. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Beware of Quacks.

Quackery is always discovering new remedies to cure all diseases of which the human system is heir to. Beware of humbugs. Assist nature by taking a remedy which has been given us by nature itself. Dr. Carlstedt's German Liver Powder is the best. It is made of roots and herbs powdered so fine that when taken into the system assists nature and thus effects the cure. Money refunded if not cured. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Cured After Suffering 15 Years.

Mr. E. B. Hackett a prominent dry goods merchant of Morganfield, Ky., suffered for years with constipation and indigestion and was prostrated by a traveling man who told him that Carlstedt's German Liver Powder was the best. He gave it a trial and he began to feel better after the first dose. After using it, Mr. Hackett who was troubled with piles, was surprised to find himself cured of the disease. He is now a well man and does not have to use any medicine. It cures and you do not become a slave to the medicine. If you are effected in this manner, give it a trial as it will only cost you 25c. and should it not prove as we say, the druggist will refund to you your money. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Our Guarantee.

Our aim has been to make the most pleasant at the same time the most effective liver medicine, and in accomplishing this, we have spent thousands of dollars in experiments. We will not apply this medicine to time and money, don't you think our preparation ought to have merit. All we ask is a trial. Carlstedt's German Liver Powder will cost you nothing unless it is a trial. You get 50c. and \$1 size; powder 25c. size. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Good Morning.

What a bad night. Worried, can't sleep, feel all tired out. Hard mental work takes away the digestive power and the liver becomes languid, or perhaps you have overindulged in the use of stimulants. Been eating or drinking too much? In order to promote refreshing sleep after business is over, take a dose of Carlstedt's German Liver Powder. It stimulates the stomach, liver, kidneys and bowels to action thus relieving the system. It will make you feel alert in the morning. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Be Beautiful.

If your blood is bad, your face shows it. It is nature warning you that the condition of the blood needs attention before more serious disease sets in. Beauty is blood deep. When you see pimples and liver spots on your face, go at once and secure a bottle of Carlstedt's German Liver Medicines as they will purify the blood, clear the complexion and bring the rosy blush of health to the faded cheeks. Take away the liver spots and pimples. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

The Jackson Hustler and North Middleton Advance are publishing the names of their delinquent subscribers.

The Hon. Lyman Gage, who is to be Secretary of the Treasury, is said to have a cousin of Dr. Gage, of Grandview.

All of which only goes to prove that we ought to be truly thankful for being permitted to live in an epoch remarkable for advancement in science and industry, and in an age of liberty which makes possible this astounding progress.

Through St. Bernard Pass.

Mrs. Herman Davis, of New York, is the first woman to ride a bicycle across the great St. Bernard pass. Her husband, who is a professor of astronomy in Columbia college, traveled 3,000 miles on their wheels in Europe during their summer outing, making about 65 miles each day. When she dismounted at this historic hospice of St. Bernard the good priest who welcomed her exclaimed: "A woman! A woman! You are the first woman who ever came over that road on a wheel. And you are an American. Well, we might have expected it. The American women are the first to accomplish that feat. There are but few men who have ever tried it."

A Well Known Physician.

Dr. W. R. McDowell of Central City, Ky., says German Liver Powder is the best family medicine made and is known almost everywhere. Price 25c. Money refunded if not satisfactory.

Assist Nature and She will do the Rest.

Use nature's own remedy, Carlstedt's German Liver Powder. This is made of roots and herbs powdered very fine so that your system gets the full benefit of all its ingredients. Beware of strong Cathartics. They do more harm than good. Price 25c. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Beware of Quacks.

Quackery is always discovering new remedies to cure all diseases of which the human system is heir to. Beware of humbugs. Assist nature by taking a remedy which has been given us by nature itself. He gave it a trial and he began to feel better after the first dose. After using it, Mr. Hackett who was troubled with piles, was surprised to find himself cured of the disease. He is now a well man and does not have to use any medicine. It cures and you do not become a slave to the medicine. If you are effected in this manner, give it a trial as it will only cost you 25c. and should it not prove as we say, the druggist will refund to you your money. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Our Guarantee.

Our aim has been to make the most pleasant at the same time the most effective liver medicine, and in accomplishing this, we have spent thousands of dollars in experiments. We will not apply this medicine to time and money, don't you think our preparation ought to have merit. All we ask is a trial. Carlstedt's German Liver Powder will cost you nothing unless it is a trial. You get 50c. and \$1 size; powder 25c. size. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Good Morning.

What a bad night. Worried, can't sleep, feel all tired out. Hard mental work takes away the digestive power and the liver becomes languid, or perhaps you have overindulged in the use of stimulants. Been eating or drinking too much? In order to promote refreshing sleep after business is over, take a dose of Carlstedt's German Liver Powder. It stimulates the stomach, liver, kidneys and bowels to action thus relieving the system. It will make you feel alert in the morning. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

Be Beautiful.

If your blood is bad, your face shows it. It is nature warning you that the condition of the blood needs attention before more serious disease sets in. Beauty is blood deep. When you see pimples and liver spots on your face, go at once and secure a bottle of Carlstedt's German Liver Medicines as they will purify the blood, clear the complexion and bring the rosy blush of health to the faded cheeks. Take away the liver spots and pimples. For sale by all druggists, L. L. Elgin special agent Hopkinsville, Ky.

The Jackson Hustler and North Middleton Advance are publishing the names of their delinquent subscribers.

The Hon. Lyman Gage, who is to be Secretary of the Treasury, is said to have a cousin of Dr. Gage, of Grandview.

All of which only goes to prove that we ought to be truly thankful for being permitted to live in an epoch remarkable for advancement in science and industry, and in an age of liberty which makes possible this astounding progress.

Through St. Bernard Pass.

Mrs. Herman Davis, of New York, is the first woman to ride a bicycle across the great St. Bernard pass. Her husband, who is a professor of astronomy in Columbia college, traveled 3,000 miles on their wheels in Europe during their summer outing, making about 65 miles each day. When she dismounted at this historic hospice of St. Bernard the good priest who welcomed her exclaimed: "A woman! A woman! You are the first woman who ever came over that road on a wheel. And you are an American. Well, we might have expected it. The American women are the first to accomplish that feat. There are but few men who have ever tried it."
